

Biography

Dr. Yoonsoo Han

Yoonsoo Han received his M.S. and Ph. D. degree in the department of Material Science and Engineering from the Korea Advanced Institute of Science and Technology in 1995 and 2000, respectively. In 2000, he joined the plasma display division of Samsung SDI. In 2007, he joined Photonics, Microelectronics, and Microsystems Laboratory of the University of Illinois as a postdoctoral researcher. After one year, he joined MED-X lab of Northwestern University as a postdoctoral researcher. In 2012, he joined the engineering ceramic center of Korea Institute of Ceramic Engineering and Technology as a principal researcher. His research interests cover a glass and ceramic 3D printing and their application in MEMS, dental care, and cutting tool industry. He has 20 years of research experience in the engineering ceramic area.
