

Jingxian Zhang, Professor, now works in Shanghai Institute of Ceramics, Chinese Academy of Sciences. He got his Doctor's degree in Material Science from Shanghai Institute of Ceramics in 2000. In 2002, he worked in Friedrich-Alexander University Erlangen-Nürnberg as visitor scholar. From 2003-2005, he worked in National Institute of Advanced Industrial Science and Technology, AIST Kansai as JSPS fellow. His main research area is the research on the structural design, calculation, processing and sintering mechanism of ceramics, rapid prototyping processing of ceramics parts, ceramic materials for thermal control etc. He has published more than 100 scientific papers in materials science, applied more than 20 patents with more than 15 patents authorized.
