

Prof. Young-Wook Kim

Young-Wook Kim is Professor of Department of Materials Science and Engineering at University of Seoul. His works covered electrical, thermal, and mechanical properties of SiC ceramics and fundamental understanding on microstructure-property relationships of advanced engineering ceramics. He has published more than 280 peer-reviewed journal papers and hold 55 registered patents. Dr. Kim is a fellow of the American Ceramic Society (ACerS) and an Academician of the World Academy of Ceramics. He received Global Star Award from the Engineering Ceramics Division of the ACerS, Richard Brook Award from the European Ceramic Society, and Academic Award from the Korean Ceramic Society.
