

YOSHITERU ITAGAKI

Professor, Graduate School of Science and Engineering, Ehime University

RESEARCH TOPICS

Basic research on materials chemistry dealing with ceramics

Development of fuel cells and chemical sensors using ceramic materials.

EDUCATION

Master of Engineering (Industrial Chemistry), Hiroshima University, Hiroshima, Japan (1995).

Doctor of Engineering (Industrial Chemistry), Hiroshima University, Hiroshima, Japan (1998).

Postdoctoral fellow in Linkoping University, Sweden (1998-2000)

Ehime University, Department of Material Science and Engineering, Assistant professor (2003).

Ehime University, Department of Material Science and Engineering, Professor (2019).

AWARD

Award of the outstanding papers published in the JCS-Japan in 2017 (2017).
