

Prof. Jing-Feng Li is Changjiang scholar distinguished professor, School of Materials Science and Engineering, Tsinghua University, and also serves as deputy director of Tsinghua University-Toyota research center. He received his MS and Ph. D. from Tohoku University in 1988 and 1991, and worked there as assistant professor and associate professor until joining Tsinghua University as a full professor in 2002. His research interests include ferroelectric/piezoelectric and thermoelectric materials and MEMS technologies. He has published 450+ papers (H index 65) in Science, AM/AFM, EES, JACS, etc. and co-authored 2 books, 5 book chapters, holds 34 patents. Prof. Li now serves as Editor-in-Chief for Journal of Materiomics and associate Editor-in-Chief of Journal of the Chinese Ceramic Society.
