

**Shujun Zhang** is Professor at ISEM, AIIM, University of Wollongong, prior to which, he was Professor at MatSE and Senior Scientist at Materials Research Institute of The Pennsylvania State University, USA. He received ARC Future Fellowship (2014), Fellow of American Ceramic Society (2019) and Senior member of IEEE (2010). He was elected AdCom member of IEEE-UFFC. He is associate EIC of IEEE Transaction UFFC; associate editor of Science Bulletin; Journal of the American Ceramic Society and Journal Electronic Materials, section EIC of Crystals. He holds 8 US patents and has coauthored 500 papers. He is now focusing on fabrication-microstructure-property-performance relationship of functional materials for piezoelectric sensor, transducer and energy storage/harvesting applications.
