

Wook Jo is a head of Jülich-UNIST joint Leading Institute for Advanced energy research (JULIA) and a professor at the School of Materials Science and Engineering, Ulsan National Institute of Science and Technology (UNIST), South Korea. His research has focused on the functional properties of ferroelectric materials with special emphasis on lead-free piezoceramics and relaxor ferroelectrics. Recently, he is actively contributing to the field of high temperature dielectrics and room temperature multiferroics. He has published more than 150 papers, seven books, and holds six patents.
