

Prof. Yong Zhang

Yong Zhang is an associate professor of School of Materials Science and Engineering at Wuhan University of Technology (WUT). He received his Ph.D. degree (2018) in Materials Science and Engineering from WUT. He was a visiting student advised by Prof. Qing Wang at The Pennsylvania State University from 2015 to 2018. Since the July of 2019, Prof. Zhang holds the research fellow position at National University of Singapore. His research interests include ferroelectric ceramics, polymer-based composites, and new nanomaterials for energy storage and conversion.
