

Dr. Haruo Kishimoto

Senior Research Scientist, Energy Conversion Technology Group

Research Institute for Energy Conservation (iECO)

National Institute of Advanced Industrial Science and Technology (AIST)

B.A. in engineering, Osaka University, Osaka-Japan 1997

M.A. in engineering, Osaka University, Osaka-Japan 1999

PhD in engineering, Osaka University, Osaka-Japan 2002

2002.4- PD (Fuel cell group, AIST)

2005.4- Research scientist (Fuel cell group, AIST)

2011.10- Senior research scientist (Fuel cell materials group, AIST)

(2018- group name is revised to energy conversion technology group)

Specialty: Fuel cell materials, Solid state ionics,

Theme: Durability and reliability of SOFCs, Fuel flexibility for SOFCs, Power to X technology (SOEC),
