mag.ing.chemng. Antonia Ressler  
Department of Physical Chemistry  
Faculty Chemical Engineering and Technology  
University of Zagreb

Antonia Ressler is Assistant at the Department of Physical Chemistry at Faculty Chemical Engineering and Technology, University of Zagreb. Her research interest lie in the field of ceramics and polymers for medical applications, currently focused on hydrogels and scaffolds containing multi-substituted hydroxyapatite for bone tissue engineering. She is active member of the Croatian Society of Chemists and Chemical Engineers, Croatian Ceramics Society and the committee member of Young Ceramists Network.
